

The best offense... is a SOLID defense.

Albarrie's
Defender Series

Fullback / Halfback
Tailback / Slotback

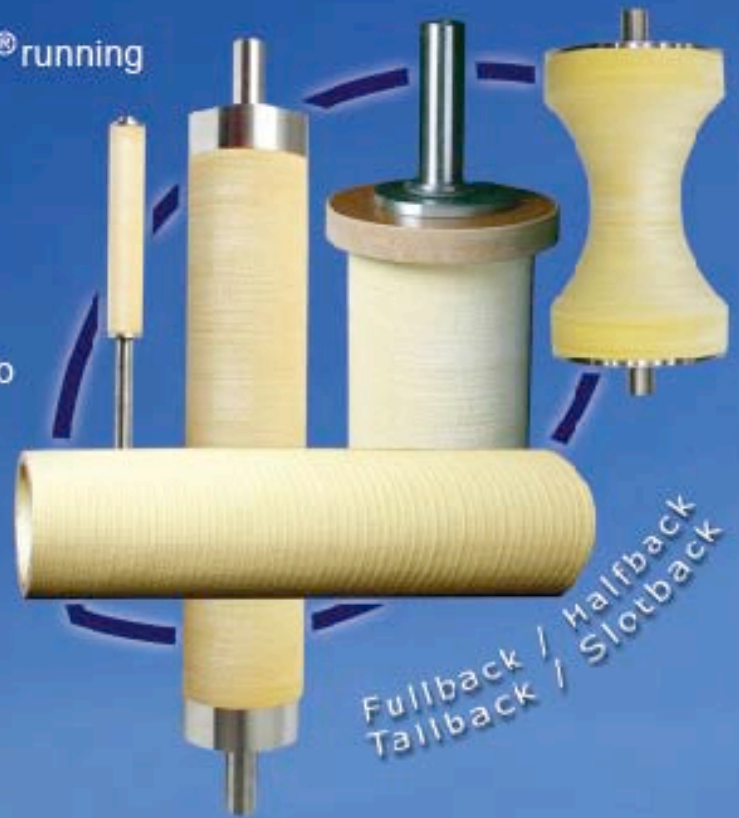

Albarrie

www.albarrieextrusion.com

Fullback

- High temperature extrusion rollers
- Durable, dense, heat resistant Kevlar® running surface
- Superior performance
- Exceptional service life and easy installation
- Protect surface finish on profiles
- Reduce scrap and downtime
- Custom designed and manufactured to your specifications
- Unparalleled performance in water and mist cooling areas
- Custom designed for drop-in replacement of existing graphite or sleeve style rollers.

Halfback & Tailback

- High temperature roller sleeves
- Kevlar® running surface
- Easy to install
- Made to order
- Competitively priced
- Available in standard or resin hardened

Slotback

- Used to separate profiles from multi-cavity dies
- Replacement for graphite pins and slabs
- Diameters as small as 0.875" (22mm)
- Protect surface finish on profiles and reduce scrap
